www: https://dajmcdon.github.io/
email: daniel@stat.ubc.ca

Research interests

Machine learning; risk estimation; computational approximations; time series; applications in epidemiology, economics, biology, chemistry, and music

Education

2012 Doctor of Philosophy in Statistics
Carnegie Mellon University, Pittsburgh PA, USA
Dissertation: "Generalization error bounds for state space models"
Advisors: Cosma R. Shalizi and Mark Schervish

2008 Master of Science in Statistics
Carnegie Mellon University, Pittsburgh PA, USA

2006 Bachelor of Arts in Economics
Indiana University, Bloomington IN, USA
Summa cum laude

2006 Bachelor of Science in Music and an Outside Field
Indiana University, Bloomington IN, USA
Majors: Cello Performance and Mathematics
Magna cum laude

Academic appointments

2020– **Associate Professor of Statistics**
University of British Columbia

2018–2020 **Associate Professor of Statistics**
Indiana University, Bloomington
Core faculty, Department of Statistics, Program on Data Science
Adjunct Faculty, Department of Computer Science
Affiliate, Center for Algorithms and Machine Learning

2018–2019 **Visiting Associate Professor of Econometrics and Statistics**
The University of Chicago Booth School of Business

2012–2018 **Assistant Professor of Statistics**
Indiana University, Bloomington

Research grants awarded

2023–2028 Delphi Center for Innovation in Outbreak Analytics and Disease Modeling. Co-PI (with R. Rosenfeld as PI). CDC Center for Forecasting and Outbreak Analytics; 17,000,000 USD.

2023–2025 Development of forecast, analytic, and visualization tools to improve outbreak response and support public health decision-making. PI. NSERC Alliance International; 200,000 CAD.

2023–2024 Development of forecast, analytic, and visualization tools to improve outbreak response and support public health decision-making. Co-PI (with R.J. Tibshirani as PI). Council of State and Territorial Epidemiologists; 150,000 USD.

2023 Digital Public Health Surveillance for the 21st Century. Co-PI (with R. Rosenfeld as PI). Centers for Disease Control and Prevention; 3,500,000 USD.

2021–2025 Regularization and approximation: Statistical inference, model selection, and large data. PI. National Sciences and Engineering Research Council of Canada, Discovery Grant, RGPIN-2021-02618; 135,000 CAD

2020–2021 Detecting anomalies in COVID19 indicators. PI. Canadian Statistical Sciences Institute, Rapid Response Program; 5,000 CAD.

2019–2020 Indiana University Institute for Advanced Studies, Recently Tenured Working Group Research Stipend; 8,000 USD.

2018–2023 CAREER: Calibrating regularization for enhanced statistical inference. PI. National Science Foundation, DMS–1753171; 400,000 USD.

2014–2018 Collaborative research: Statistical and computational efficiency for massive data sets via approximation-regularization. PI. National Science Foundation, DMS–1407439; 90,000 USD.

2014–2016 High-Dimensional Statistics for Macroeconomic Forecasting. Co-PI (with C. Shalizi as PI). Institute for New Economic Thinking, Grant # INO14–0020; 142,146 USD.

2011–2013 Model Complexity and Prediction Error in Macroeconomic Forecasting. (with C. Shalizi as PI). Institute for New Economic Thinking; 170,000 USD.

Awards and honors

2024 Dean of Science Letter for Highest Teaching Evaluations
2023 Nomination, UBC Killam Teaching Award for Science Instructors
2023 Dean of Science Letter for Highest Teaching Evaluations
2022 Dean of Science Letter for Highest Teaching Evaluations
2018 National Science Foundation CAREER Award
2017 Indiana University Trustees' Teaching Award
2012 Umesh Gavasakar Memorial Thesis Award
2012 American Statistical Association, Pittsburgh Chapter Student of the Year
2006 Phi Beta Kappa
2006 Carroll Christenson Award in Economics
2005 Stadelmann Memorial Scholarship Award in Economics
2004 Mr. & Mrs. Harold E. Strow Award in Economics
2004 Hutton Honors College International Experiences Program Award
2004 Jacobs School of Music Summer Festival Scholarship
2003 James A. Moffat Award for Scholarship in Economics
2002 Alice Freese Honors College Scholarship

2002 Indiana Young Economist Award, Indiana Council of Economic Education
2002 The Reserve Officers Association White River Chapter Scholarship
2002 National Merit Scholarship

Invited presentations

2024 "An infectious disease forecast hub for Canada," Public Health Agency of Canada, EMNID Monthly Seminar
"Collaborative Modelling for Infectious Disease," Statistical Society of Canada Annual Meeting, St. Johns, NL
"Markov-switching state space models for uncovering musical interpretation," University of British Columbia + Simon Fraser University Joint Statistics Seminar
"Introduction to epidemiological forecasting," Workshop on Biostatistics, Vancouver Machine Learning

2023 "Statistical approaches to epidemic forecasting," Biostatistics Seminar, University of Calgary Department of Mathematics and Statistics

"epiprocess and epipredict: R packages for signal processing and forecasting," Workshop on Infectious Disease Forecasting, Council of State and Territorial Epidemiologists, Salt Lake City, UT

"epiprocess and epipredict: R packages to ramp up forecasting systems," Royal Society Meeting on Forecasting Infectious Disease Incidence, London UK

2022 "Markov-switching state space models for uncovering musical interpretation," Data Science Applied Research and Education Seminar, CANSSI Ontario and University of Toronto Department of Statistical Sciences

"Markov-switching state space models for uncovering musical interpretation," McGill University, Department of Mathematics and Statistics

2021 "Your model is beautiful, but does it predict?" NeurIPS I Can't Believe It's Not Better Workshop

"Markov-switching state space models for uncovering musical interpretation," International Conference on Computational and Methodological Statistics

2020 "Compressed and penalized linear regression," International Conference on Computational and Methodological Statistics

"Delphi's COVIDcast Project: An Ecosystem for Tracking and Forecasting the Pandemic," British Columbia COVID-19 Modeling Group

"Minimax density estimation under triangular array asymptotics," International Workshop on Applied Probability (cancelled, COVID19)

"Trend filtering in exponential families," Conference on Statistical Learning and Data Science (cancelled, COVID19)

"Trend filtering in exponential families," Simon Fraser University, Department of Statistics and Actuarial Sciences

"Trend filtering in exponential families," University of British Columbia, Department of Statistics

2019 "Markov-switching state space models for uncovering musical interpretation," Simon Fraser University, Department of Statistics and Actuarial Sciences

"Trend filtering in exponential families," University of Chicago and Toyota Technological Institute Machine Learning Seminar

"Regularization, optimization, and approximation: The benefits of a convex combination," Texas A&M University, Department of Statistics

"Regularization, optimization, and approximation: The benefits of a convex combination," University of Toronto, Department of Statistics

"Regularization, optimization, and approximation: The benefits of a convex combination," Colorado State University, Department of Statistics

"Regularization, optimization, and approximation: The benefits of a convex combination," University of Pittsburgh, Department of Statistics

2018 "Matrix sketching for alternating direction method of multipliers optimization," Symposium on Statistics and Data Science

"A Switching Kalman Filter for Modeling Classical Music Performances," Institute of Mathematical and its Applications Frontiers in Forecasting Workshop

"Statistical implications of (some) computational approximations," University of Virginia, Department of Statistics

2017 "Predicting phenotypes from microarrays using amplified, initially marginal, eigenvector regression," 25^{th} Intelligent Systems for Molecular Biology and the 16^{th} European Conference on Computational Biology

"Compressed and penalized linear regression," Toyota Technological Institute at Chicago, Machine Learning Seminar

"Compressed and penalized linear regression," Pontificia Universidad Católica del Perú, Department of Mathematics and Statistics

"Estimating β-mixing coefficients with histograms," American Mathematical Society Spring Central Sectional Meeting, Special Session on Dependence in Probability and Statistics

2016 "Approximation-regularization for analysis of large data sets," University of Louisville, Department of Bioinformatics and Biostatistics

"Approximation-regularization for analysis of large data sets," University of California, Davis, Department of Statistics

"Approximation-regularization for analysis of large data sets," Indiana University-Purdue University Indianapolis, Department of Biostatistics

"Approximation-regularization for analysis of large data sets," National Center for Atmospheric Research

"Risk estimation for high-dimensional lasso regression," Joint Statistical Meetings

2015 "Approximate principal components analysis of large data sets," Yale University, Department of Statistics

2014 "Approximate principal components analysis of large data sets," Joint Statistical Meetings

"Clustering classical music performance," Université Laval, Department of Mathematics and Statistics

2013 "Clustering classical music performance," 15^{th} IMS New Researchers Conference

2012 "Nonparametric risk bounds for time-series prediction," Yahoo! Research

"Nonparametric risk bounds for time-series prediction," George Mason University, Department of Statistics

"Nonparametric risk bounds for time-series prediction," Bocconi University, Department of Decision Sciences

"Nonparametric risk bounds for time-series prediction," Indiana University, Department of Statistics

"Estimating beta-mixing coefficients," 14^{th} International Conference on Artificial Intelligence and Statistics

"Estimating beta-mixing coefficients," American Statistical Association, Pittsburgh Chapter Annual Meeting

"Spectral approximation methods: performance evaluations in clustering and classification" The Classification Society Annual Meeting

2010 "Generalization error bounds for state-space models with an application to economic forecasting," Joint Statistical Meetings

Invited short courses

2015 "Short course on the predictive viewpoint," Institute for New Economic Thinking Young Scholar Workshop, New York

2013 "Short course on the predictive viewpoint," Institute for New Economic Thinking Young Scholar Workshop, Hong Kong

Contributed talks

2021 "COVID-19 modeling and forecasting in the US and Canada: A statistician's perspective," University of British Columbia, Department of Statistics

2019 "Sufficient principal component regression for genomics," Joint Statistical Meetings

2017 "Compressed and penalized linear regression," Indiana University, Department of Statistics

"Predicting phenotypes from microarrays using amplified, initially marginal, eigenvector regression," Joint Statistical Meetings

2015 "Approximate principal components analysis of large data sets," Indiana University SOIC, Intelligent & Interactive Systems

2014 "Statistical machine learning with structured data," Indiana University, Department of Statistics

2012 "Nonparametric risk bounds for time-series prediction," Indiana University, Department of Economics

Course instruction

University of British Columbia, *2020–*

Stat 550 Techniques of Statistical Consulting (W21T2, W22T2, W23T2)

Stat 535a Computational Statistics - Convex optimization (W20T2)

Stat 406 Methods for Statistical Learning (W20T1, W21T1, W22T1, W23T1)

Indiana University Department of Statistics, *2012–2020*

S301 Introduction to Business Statistics (Fa13, Sp14, Fa14)

S432 Applied Linear Models II (Sp16, Sp17, Sp18)

S682 Topics in Statistical Machine Learning (Sp14)

S721 Advanced Statistical Theory I (Fa12, Fa14)

S722 Advanced Statistical Theory II (Sp13)

S771 Advanced Data Analysis I (Fa16, Sp17, Fa19)

S772 Advanced Data Analysis II (Fa16, Sp17, Fa19)

S782 Topics in Statistical Learning Theory (Fa17)

S785 Seminar on Statistical Theory (Fa17, Sp17, Fa19)

University of Chicago Booth School of Business, *2018*

41911 Advanced Econometrics (Fa18)

Carnegie Mellon University, *2010–2011*

36–226 Introduction to Probability and Statistics II (Su10, Su11)

Student advising

(year indicates actual or anticipated completion)

PhD advisor

2025 Rachel Lobay (UBC Statstics)

2024 Jiaping Liu (UBC Statistics)

2020 Lei Ding (IU Statistics)

PhD dissertation committee

2026 Nikolas Kristic (UBC Statistics)
2025 Jonathan Agyeman (UBC Statistics)
2024 Lorenzo Tomaselli (Carnegie Mellon Statistics)
Ning Shen (UBC Statistics)
Lin Zhang (UBC Statistics)
2021 Sanna Wager (IU Informatics)
2020 Yucong Jiang (IU Computer Science)
Chao Tao (IU Computer Science)
Shay Liu (IU Geology)
2019 Zikun Yang (IU Statistics)
Xuefu Wang (IU Statistics)
2018 Robert Lunde (Carnegie Mellon Statistics)
2017 Rong Jin (IU Informatics)
2015 Yupeng Gu (IU Informatics)

MSc thesis advisor

2025 Christine Chuong (UBC Statistics)
Tom Tang (UBC Statistics, co-advisor J. Chen)
Sarah Masri (UBC Statistics)
Wakeel Adekunle (UBC Statistics, co-advisor N. Heckman)
2022 William Laplante (UBC Statistics, co-advisor B. Bloem-Reddy)
Elvis Cai (UBC Statistics, co-advisor P. Gustafson)
2021 Xiaoxuan Liang (UBC Statistics)
Wei Tang (UBC Statistics)
2020 Haoran Liu (IU Statistics)
2018 Arash Khodadadi (IU Statistics)
2017 Jia Wang (IU Statistics)

PhD exam advisor

2020 Robert Granger (IU Statistics)
Aaron Cohen (IU Statistics)
2017 Lei Ding (IU Statistics)
Raksha Kumaraswamy (IU Computer Science)
2015 Sanna Wager (PhD Informatics)
2014 Zikun Yang (IU Statistics)
Lijiang Guo (IU Statistics)

Undergraduate research

2022 Ken Mawer (UBC NSERC USRA)
2020 Mackenzie Turner (IU Center for Women in Technology REU)
2018 Michael McBride (IU)

Professional service

Society leadership

2023–2025 Statistical Society of Canada, Regional Representative AB/BC/Yukon

Associate Editor

2017–2022 Journal of the American Statistical Association
2017–2022 The American Statistician

Tenure and promotion reviews
Department of Statistics and Actuarial Sciences, Simon Fraser University, 2023

Grant reviews
National Sciences and Engineering Research Council, Discovery Grant, ad hoc
Canadian Statistical Sciences Institute
Division of Mathematics and Statistics, National Science Foundation
Institute for New Economic Thinking

PhD Dissertation External Examiner
Department of Statistics and Actuarial Science, University of Waterloo, 2024

Conference Scientific Committee
2024 IMS International Conference on Statistics and Data Science (ICSDS), Nice FR
2023 Midwest Machine Learning Symposium, Chicago, IL.
2021 International Conference of the ERCIM WG on Computational and Methodological Statistics (CMStatistics), London UK

Conference Area Chair
Neural Information Processing Systems (NeurIPS)
International Conference on Learning Representations (ICLR)
International Conference on Machine Learning and Statistics (ICML)

Conference Program Committee
Neural Information Processing Systems (NeurIPS)
Conference on Uncertainty in Artificial Intelligence (UAI)
International Conference on Artificial Intelligence and Statistics (AISTATS)
International Conference on Machine Learning and Statistics (ICML)

Journal reviews
Electronic Journal of Statistics • Epidemics • Epidemiology and Infection • Harvard Data Science Review • IEEE Transactions on Information Theory • International Conference on Learning Theory (COLT) • Journal of the American Statistical Association • Journal of Applied Statistics • Journal of Business and Economic Statistics • Journal of Computational and Graphical Statistics • Journal of Machine Learning Research • Journal of Nonparametric Statistics • Journal of Optimization Theory and Applications • Journal of Statistical Theory and Practice • Journal of Statistical Computation and Simulation • Machine Learning Journal • PLOS Computational Biology • Proceedings of the National Academy of Sciences • Statistical Science • Statistics and Computing • Technometrics • TEST (Official Journal of the Spanish Society of Statistics and Operations Research) • Wellcome Open Research

Other
